## Master Game for 2 Players

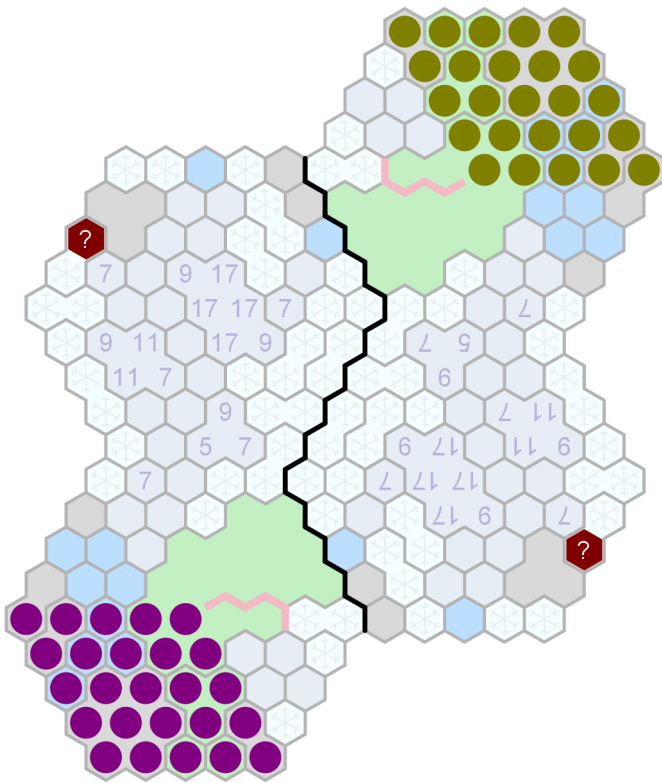

**Goal:** Destroy all of your opponent's figures.

**Setup:** Assemble 2 copies of MOP5121 and arrange them as shown. Players bring pre-made armies of 500 points.

Take the glyphs of Astrid, Dagmar, Gerda and Valda; turn them symbol-side up and shuffle them. Randomly select two glyphs and place them where shown. (Leave the unused glyphs symbol-side up.) Right before placing Order Markers in Round 1, turn the glyphs power-side up.

**Special Rules:** Treat all Snow Tiles as Heavy Snow and treat all Ice Tiles as Normal Ice.

**Victory:** Be the last player with at least one figure on the battlefield to win.
